

A leading chemical group

Multiquimica is a private business group in the chemical sector established in 1984.

We are the leading resin manufacturer and the distributor of industrial raw materials, bulk and specialty chemicals in Central America and the Caribbean.

In 2023 Multiquimica and Yenkin-Majestic partnered in North America as OPC Polymers LLC to build a new latex and alkyds manufacturing facility in Columbus, OH.

6 Business units to support your value chain
